Good afternoon Lt. Duke,

I was mistaken about our ability to response to these encampments; I clarified this with Sgt. Robles this afternoon. We will start responding to these sites with Rapid Response after outreach has been conducted. Would you please tell me who or how the complaints against these encampments were generated. Just a reminder, LASAN is limited on their enforcement efforts because of the rain and cold weather.

Mathew and Lakesha,

I included you in this email to find out if the same LAHSA team that handles El Pueblo can start outreach at these sites? If this is not possible because of the boundaries, I will utilize the teams that are assigned to the HOPE team. The encampments are located on Los Angeles and Main Street over the 101 FWY. Due to the proximity of these encampments and the "A Bridge Home," I wanted to ensure we utilize the correct team.

Respectfully,

Sergeant Arturo Siguenas
